

24-core optical module

Overview

The 24 Fibers Fully Loaded MPO/MTP Cassette is an efficient and high-performance solution for managing fiber connections in high-density environments. Designed for seamless transitions between MPO/MTP connectors and LC/SC discrete adapters, this module enhances system flexibility and ease of use. SHENGWEI 24-Core FC Single Mode Optical Distribution Frame ODF Shenzhen Innovation Shengwei Technology Co., Ltd, a professional manufacturer in optical telecommunication and network cabling with over 19 years experience, is a technology-driven enterprise that integrates R&D, production and sales. Welding. SJ-ODF-24 ODF 24 core, 24 port ODF is designed to deliver power to multiple appliances. They can be easily used with their flexible construction in narrow. The POB24 series parallel optical transceiver module is designed for defense communication command systems and subsystems, enabling bidirectional conversion between multi-channel electrical and optical signals.
