

800G Active Optical Cable from the Philippines

Overview

The 800G OSFP Active Optical Cable is designed for 800 Gigabit Ethernet links over OM4 multimode fiber. This cable is compliant with IEEE 802.0, SFF-8679, and CMIS Rev 4. The built-in digital diagnostics monitoring (DDM) allows access to real-time operating. The 800G Active Optical Cable (AOC) series redefines data-center interconnect performance by combining the simplicity of a pluggable copper cable with the reach and signal integrity of embedded optics. Transmission is based on VCSEL 850nm with electrical driver, while Receiver side is. We supply the following: Media Converters, Patchcords, SFP Transceivers and Various Fiber Optic Products | Direct Attach Cables (DAC) | Active Optical Cables (AOC) | Media Converter Chassis | Fiber Optic Cables / FTTH Drop Cables | MTP / MPO | Breakout | PLC Splitters | Pigtailed | Connectors |. bps PAM-4 channels. The signal integrity severely stressed under high-speed data transmission is enhanced via advanced ighest flexibility.
