

Adss fiber optic cable suspension head

Overview

ADSS suspension clamp is a heavy duty, versatile, and reliable solution for securely suspending ADSS (All Dielectric Self-Support) aerial fiber optic cable. The versatility of the clamp allows the installer to either fix the clamp to the pole using a through bolt or band. ADSS Accessories. They support your cable by providing the means of suspension and elevation, keeping the cable properly tensioned while it is hanging and offering some protection against wind, vibration, and all the other forces of nature. They are designed for short and medium spans, ensuring the reliable positioning of ADSS cables at intermediate routes. Below YINGDA of. Cushion inserts made from soft polyurethane, capture and secure the cable firmly without causing excess pressure. SRR allow greater line angles and longer span lengths. Consult PLP for further details.
