

Aluminum Profiles for Electrical Distribution Boxes

Overview

Discover high-performance Electrical & Power Distribution aluminium extrusions engineered for safe, efficient, and scalable power infrastructure across industrial, commercial, and renewable energy projects. Delvalle design and manufacture heavy duty aluminium electrical enclosures and cabinets. Are perfectly designed for their main function of protecting electronics and electrics components, and offering a series of additional benefits for outdoor locations and climatization. Suitable to be used for measuring equipment, controllers, transmitters or power supplies. Faster Delivery - Enjoy expedited shipping options for quicker turnaround. Generate Instant Quote - Create and. Product Features Attractive design Aluminum sheet metal and extruded profile (sidewalls) Extruded side walls black anodized.
