

Blind panels for home network cabinets

Overview

Cover panels, also known as blind panels, are indispensable accessories for a well-organized and efficient server cabinet. They provide a professional finish by filling empty units, which not only improves the appearance of the server cabinet, but also offers functional. With our 19-inch cover panels (blind panels) you can easily fill empty units in your server cabinet. This not only creates a sleek and professional look, but also contributes to better air circulation. Our range includes products from network cabinets, switches, patch panels and cable management to power supply and other accessories. Especially when space is limited (e. in private households). Blind cover panel for covering the spaces that are not occupied in a 19" rack or network-cabinet.
