

# Cable tray bending technology

## Overview

A cable tray bending machine is a specialized piece of equipment designed to shape metal trays used for electrical cable management. Every data center requires numerous cable tray bends and drops—sometimes thousands in just one installation. It minimizes energy consumption during continuous operation while maintaining fast cycle times. WhatsApp: 17802216114 Email: bernice@hx-machinery.com cable tray bending machine Our cable tray bending machine delivers automated, high-speed, and precise bending solutions for. Bridge type hydraulic CNC bending machine is a newly developed automatic bending equipment on the basis of hydraulic servo CNC bending machine, which integrates automatic material absorption, automatic material support, automatic bending and automatic material discharge functions.
