

Can I connect two routers to the fiber optic cable in my home

Overview

Yes, you can connect two routers to one fiber modem, but understanding the 'how' and 'why' is crucial for optimal network performance. Assume you have house with direct access to an optic fibre cable (FTTP). In the basement, there is the ONT+residential gateway device that converts the light impulses to Ethernet. Before you begin configuration, it is. Basically, the way you have it set up is that the box to Room A is being used as an extension to get the ONT Ethernet hand off to your router in room A, but you have no second cable to bring it back here to pass the network to Room B. This guide clarifies the possibilities, practical methods, and potential pitfalls, ensuring you maximize your home or small office network. Can I Connect Two. yes, for single-mode modules, you'll need single mode fiber/cable.
