

Can cable trays be shared with duct hangers

Overview

The general rule is that you can't hang cable tray from anything but structure, and you can't hang anything from cable tray. If you do not plan the layout early, services will clash, and someone has to move. AS/NZS 3000 and AS 3013 set the rules for how far cables must sit from other services, how often you. This publication is intended as a practical guide for the proper and safe* installation of cable ladder systems, cable tray systems, channel support systems and associated supports. Cable ladder systems and cable tray systems shall be manufactured in accordance with BS EN 61537, channel support. Race- ways or cable trays containing electrical conductors shall not contain any pipe, tube, or equal for steam, water, air, gas, drain- age, or any service other than electrical. There's an informational note in the Cable Tray article: Informational Note: For further information on cable trays. Section 318-4 Uses Not Permitted states that "Cable tray systems shall not be used in environmental air spaces except as permitted in Section 300-22 to support wiring methods recognized for use in such spaces. This article provides an in-depth.
