

Can fiber optic cable cutters be used to sharpen cables

Overview

Instead, use a dedicated fiber optic cable cutter designed for this purpose. Identify the Damaged Section: Before cutting, visually inspect the cable for any visible damage, such as kinks . Our fiber optical cable cutter is meant to be used in conjunction with a high quality fiber optic cable strip tool, such as the trueCABLE Fiber Optic Cable Stripper. Do you have some you can try a test on?

If so, get a piece of flat steel, or stone (maybe like a marble counter sample, etc) and lay fibers down on it flat. Eye Protection: Always wear safety goggles. Purpose-built Fiber Optic Cutters, part of the broader category of Fiber Optic Tools, give you clean, repeatable cuts on jackets, strength members, and buffer tubes—so. The blade is made of high hardness alloy steel material and undergoes precision grinding treatment to ensure smooth and burr free cutting edges, effectively avoiding damage to the optical fiber during the cutting process. Here's a more detailed breakdown: Use the Right Tool: Avoid using.
