

Data Center PDU42U Three-Year Warranty

Overview

3-Year standard and 5-Year extended warranty. Built with premium components to withstand 140°F (60°C) at full load. Unique outlets design for high outlet density. Hot-Swappable Controller with large OLED display. We are guided by our commitment to do business right. The HPE Metered and Switched Power Distribution Unit (PDU) provides both local and remote power management for your IT racks. An advanced LCD screen provides local monitoring and alert indications, while remote access and configuration are available through secure Web, SNMP, CLI, or Telnet. Panduit PDUs stand as the cornerstone of power management, ensuring seamless operation of your equipment in data centers and high-density IT environments. They easily integrate with your data centre infrastructure management systems to make your organization more resilient, enhance your business and. The Basic PDU Series includes models in 1U and 0U options, with versatile outlet arrangements on the front and/or back. Each. With its universal input, dynamic C39 outlets and global approval, Eaton's universal input rack PDU G4 (UPDU) is a single solution equipped to meet the most diverse data center rack power needs.
