

Democratic Republic of Congo Mobile Internet Data Center

Overview

Known as Raxio DRC1, the facility is backed by a \$30 million investment, and Raxio believes it represents a pivotal milestone in the nation's 2025 "Plan National du Numérique," which aims to drive digital inclusion, foster private sector growth, and transform public services. Known as Raxio DRC1, the facility is backed by a \$30 million investment, and Raxio believes it represents a pivotal milestone in the nation's 2025 "Plan National du Numérique," which aims to drive digital inclusion, foster private sector growth, and transform public services. The Democratic Republic of Congo (DRC), one of Africa's most resource-rich nations, has long been viewed as a country with vast untapped potential. However, despite its wealth in natural resources, the DRC has historically lagged in technological infrastructure. This narrative is beginning to. Data center operator Raxio Group has inaugurated a new data center in the Democratic Republic of the Congo (DRC), its fourth in Africa. First announced in early 2023. This report is part of a series of market briefs developed by Xalam Analytics at the behest of Digital Investment Facility (DIF) under the Data Governance in Africa Initiative, on the data center market opportunity in sub-Saharan Africa ("SSA"). Eastcastle Infrastructure, a company.
