

# Denmark coherent optical module

## Overview

The industry's first dual-laser QSFP28 DCO module for single-fiber, bi-directional applications delivers 10x capacity upgrades on existing 10G infrastructure. Powered by the low-power Steelerton™ DSP, it enables flexible, scalable, and cost-efficient optical access for. SAXONBURG, PA, September 28, 2025 (GLOBE NEWSWIRE) – Coherent Corp. (NYSE: COHR), a global leader in photonics, announced today that it will showcase its latest innovations in next-generation optical communications at ECOC 2025, taking place September 29-October 1 at the Bella Center in Copenhagen. Among their recent product announcements are a 2D VCSEL array for AI/ML datacenter interconnects, the first dual-laser QSFP28 DCO module for single-fiber applications, and a new 400mW continuous-wave laser for co-packaged optics. Coherent will also demonstrate various cutting-edge technologies and. The upcoming European Conference on Optical Communication (ECOC) 2025 could be a game-changer for high-speed data transmission. (NYSE: COHR) plans to take a leading role at this event. The industry's first. Coherent Corp. Lumentum unveiled advanced transceiver modules designed for AI-driven data centers, including its 1. 6T DR8 OSFP pluggable and ultrawideband nano-iTLA laser. Other highlights included Gemtek's OMDN-107 800Gbps transmitter and Hyperlabs' HL9409 ultra-broadband 100 GHz balun.
