

Distribution Box Sealing Equipment

Overview

Case sealing machines are useful in any industry that requires folding and sealing high volumes of corrugated boxes from flat boxes. Depending on the type of equipment, case sealers can be fully or partially automated. The KVM box sealing machine is characterised by its robust and low wear-and-tear engineering, modern control technology and the simple and intuitive Becker operating concept. As the digitalization and automation of the production facilities progresses towards Industry 4. From standard boxes to the five-panel folder, the tuck-in folder. Siat. SIAT end of line packaging automation provides complete and reliable packaging solutions which are designed and built. IPG is a major integrated provider of both carton sealing tape (packing tape) and automatic carton sealing machines and dispensers.
