

Distribution box without inner door

Overview

The low-voltage distribution box supports surface-mounted/flush-mounted installation, offering high safety performance. It integrates functions such as overload protection, short-circuit protection, leakage protection, metering, and intelligent control. Distribution box surface mounted, IP40, 63A, 400VAC, without door, with terminal block for PE and N terminal 2×13, as well as necessary accessories (DIN rail, covers, installation material), 2-row for 24+2 poles, colour: white. The distribution box (DB box) helps safely and efficiently distribute electrical power. Today, electrical systems are essential for homes and industries. Surface-mounted distributors with transparent doors, for example, offer the advantage of allowing a quick and easy view of all the components installed inside. Widely applied in buildings, industrial. ABB offers a total ev charging solution from compact, high quality AC wall boxes, reliable DC fast charging stations with robust connectivity, to innovative on-demand electric bus charging systems, we deploy infrastructure that meet the needs of the next generation of smarter mobility. Boxes designed to accommodate terminal strips, without a door and for pre-punched walls, in grey colour with dimensions of 45x130x85 mm, 2 modules EN5022 and 7W. I had used them before, good value for money! Shop with peace.
