

Dongou Optoelectronics PoE Switch

Overview

DW ® 's Power over Ethernet Switch is a 10/100Mbps PoE switch with 48V/2A external power and 4 or 8 channel configuration options. The switch simplifies installation of PoE devices such as IP cameras, wireless AP, and VoIP by transmitting both power and data through a single cable. POE-Switch0504GD is a 5 Ports DC9-54V Input Full Gigabit POE Switch with Voltage Booster. If you need the multilingual Quick Guide, please download the digital version from the Attachments section at the end of the article. Gigabit switches are great for display stations that require higher bandwidth, if network topology requires cascading multiple switches, for locations where multiple camera operations. video. It offers 24/7 real-time monitoring PD (powered device) status. This feature can save users time and avoid the hassle of manually restarting the IPC.
