

# Exfo Optical Power Meter Multifunctional

## Overview

The new EXFO FOT-930 MaxTester is a multi-functional optical tester designed to help providers reduce investment in equipment acquisition and operation, allow builders to easily adapt to all types of networks, provide cable TV operators with an all-in-one solution for measuring. The new EXFO FOT-930 MaxTester is a multi-functional optical tester designed to help providers reduce investment in equipment acquisition and operation, allow builders to easily adapt to all types of networks, provide cable TV operators with an all-in-one solution for measuring. All of EXFO's modular (IQS line) and benchtop power meters are built for top performance and pinpoint accuracy, and the various models offer a mixture of features and specifications to suit various test setups. Fast, accurate, flexible power measurement in a platform-based solution. It combines a. Connect to smart app via Bluetooth for data reporting from the field and cloud storage. Empowering frontline technicians to explore further and do more OFMs quickly measure multiple key optical parameters such as loss (dB), optical return loss (dB), length (meters) and power (dBm).
