

Finnish Commercial-Grade Optical Module Manufacturer

Overview

FinnLight provides a comprehensive combination of technologies covering all classes of photonics materials as well as full-scale process lines for device fabrication and assembly. Bevenic Oy is a prominent Nordic contract manufacturer that specializes in innovative photonics solutions, offering customized services and certified quality in the production of optical fibers and components. All our products are made in Finland. Its goal is to support the development of new business and research. October 31 - Radiant Opto-Electronics (6176). The share purchase agreement (SPA) was signed on June 25, 2025, establishing the framework for the acquisition. We combine deep technical expertise with extensive hands-on experience to deliver top-tier solutions for both private and professional customers. It belongs to the National Infrastructure.
