

Fireproof optical cable markings

Overview

Fire-resistant cables are specifically designed and tested to keep circuits operating under fire. Look for markings such as FE180, PH90/PH120, or compliance to IEC 60331 /EN 50200/BS 6387. Corning Optical Communications manufactures quality flame retardant optical fiber cables for indoor applications, which comply with the requirements of the National Electric Code® (NEC® 2023) published by the National Fire Protection Agency (NFPA). To ensure compliance to these requirements, a. Fiber optic cable jackets do more than just shield the delicate components inside, like the insulation and conductor core—they hold a hidden treasure of information. This improves safety for people in buildings. Sensing & Monitoring Solutions based in Optical Fibre We have product quality certificates UL, BUREAU VERITAS and DNV, and other approvals of our cables.
