

How many pieces are in a box of melt fiber trays

Overview

The Hellipse NZDF SC-1 pack consists of the 3 x NZDF SC-1A (white) and 3 x NZDF SC-1B (grey) which are elliptical trays designed for single circuit applications. Both trays are manufactured from ABS and finished to a high specification to eliminate the risk of snagging or. Leviton Injection-Molded Plastic Fiber Splice Trays provide protection and slack management of heat-shrink fusion spliced fibers (up to 12 or 24 fibers) inside of a fiber enclosure. All retaining tabs on the tray have radius edges and rounded corners where fibre may pass. The overall dimensions of the tray are 148 x 125. Our Moulded Fibre Trays are suitable for a wide range of pharmaceutical and medical technology applications - from primary packaging and combination kits to specialised formats. Harvest Packaging is designed for rapid prototyping and flexible scaling - from single-cavity tooling for development. bend radius across a range of splicing applications. The 12 and 24 trays hold fusion splices, while the universal t ay holds, single fusion, mechanical or ribbon fiber. They are equipped with splice holders, compatible with all standard types of heat shrink or crimp type splice protectors, and provide enough space for storage and management of the excess fiber.
