

How much does a home relay protector cost

Overview

A basic whole-home surge protector device often costs between \$100 and \$400. These essential devices serve as a primary defense mechanism against dangerous power surges that could potentially damage expensive home electronics. On average, a professionally installed whole-house surge protector costs \$300 to \$800, depending on your electrical panel and the specific unit installed. The device cost typically depends on the type of surge protector, brand, and technical specifications, such as maximum discharge current (kA), voltage protection rating (VPR), and.
