

How to check the serial number of a Huijue fiber optic switch

Overview

The Serial Number is found by running the command `chassisshow`. For switches that do not have redundant CPs (non-director class), the serial number is will be listed as follows under the CHASSIS/WWN Unit 1. slot-id specifies the slot ID of the switch. I'm looking for a portal to be able to search Cisco equipment by serial number (similar to what Dell has). SSH into the switch, and issue the following command; For 're-badged' Brocades, some vendors, (HP for example), have a ' Suppler Serial Number ' also, you need to GUI into the switch manager to get that, (that means using a browser and. This command allows you to check the SFP optics diagnostics. This. The show inventory command will give you details of the Nexus chassis, power supplies, Supervisor, Fabric, I/O modules (including FEX if you have them) etc. Regards
