

# How to remove the cover from the fiber optic distribution box

## Overview

Ensure that two-person lifting procedures are used to remove the panel from its packaging. jpg I know, it says "AT&T don't mess with it" but the installer put it in an inconvenient spot. I just. Step 1 Open the box Step 2 Remove all the adapter covers and install the adapters Step 3 Install the output pigtails of the splitter on the adapters Step 4. Measure 27-inches from the end of the cable and make a mark with a black marker. Roll out the cables when removing them from the packaging to avoid putting twists. Here's a step-by-step guide to help you set up your fiber distribution box seamlessly: Before installing the fiber distribution box, ensure that your optical cables are properly prepared for connection. This includes carefully inspecting each cable for any signs of damage or wear and cleaning them. Use the Wire Stripper/Splitter to strip a variety of fiber optic and coaxial cables up to 14 mm in diameter.
