

# How to set up an old-style fiber optic router

## Overview

To set up your router for fiber internet quickly, connect the router to your fiber modem, access the router's settings via a web browser, and input the provided ISP credentials. Make sure to update the firmware, configure Wi-Fi security, and customize your network name for optimal performance. Turning it into a simple wireless repeater is easy. My router is capable of PPPOE as well as other connection options and I wonder how do I get the details to set it up?

Can you tell us the name of the manufacturer and the typename or partno. of the router?

Geben Sie Ihren Kommentar ein. Most important for Telekom lines is to use PPPoE over VLAN7. So, his solution is. This wikiHow article teaches you how to replace your router with a new one. Then, plug in the modem and router.
