

# How to suspend cables inside a cable tray

## Overview

Suspended Mounting with Rods: This method uses threaded rods to suspend the cable tray from the ceiling. This publication is intended as a practical guide for the proper and safe\* installation of cable ladder systems, cable tray systems, channel support systems and associated supports. Wire mesh basket trays are an excellent option for a flexible and efficient cable management system. The system allows the use of electrical resources in electrical installations and/ or in communication systems. The effective management of cables helps mitigate risks, avoid potential damage, and enhance overall system performance. Clause 522-08-04 Where conductors or cables are not supported. This guide covers the critical steps, from selecting the right electrical cable tray and performing accurate cable fill calculations to managing a safe cable pull through and ensuring all bonding and grounding requirements are met.
