

India SD-WAN device 100G

Overview

INIC SD-WAN unifies your branch offices, data centres, and remote sites under a single control plane — delivering encrypted tunnels, automatic failover, and real-time monitoring at scale. Currently deployed across Madhya Pradesh, Chhattisgarh, and Delhi NCR. Nirad Connect 5G is a plug-and-play EDGE device built for small offices, retail, and remote sites. It delivers secure IPsec VPN, WAN failover, and basic firewalling, without the overhead of full SD-WAN. With zero-touch provisioning and controller-based management, it's the easiest way to roll out. is a transformational way to architect, deploy and operate corporate WANs, as it provides a simplified way of deploying and managing remote branch office connectivity in a cost-effective way. 64 GB SSD Universal 4x10/100/1000 Mbps 2 x USB 1x HDMISMOAD's Software-Defined Branch (SD-Branch) is a full-stack solution that combines WAN connectivity, wired and wireless LAN, Security, Surveillance with AI-driven analytics, Edge NaaS, and Microservices into a unified, software-defined platform. A centralised interface for fast deployment. Edgecore Networks SD-WAN solution is to address those network issues and able to provide robust, secure, adaptive network services on demand. WiFi Guard is a Wi-Fi 7-ready, next-generation managed WiFi solution featuring integrated AAA. Build a complete SD-branch on a cloud-first platform with secure SD-WAN, access, and IoT.
