

Inspection of imported power distribution boxes from Vietnam

Overview

Regulated products that are locally manufactured require mandatory certification and the Vietnam Certification Centre (QUACERT) quality mark. Imported products are regulated by import-export goods control and only require a DoC or certification by a third-party Certification. Vietnamese traders are entitled to (I) export goods of all kinds, except goods on the list of those banned from export, and (II) import goods according to the business lines stated in their business registration certificates. Foreign-invested enterprises and business cooperation parties, apart from. The procedures of state quality inspection for imported goods that professional import-export and logistics personnel must be thoroughly familiar with. EXTENDMAX - Product Quality inspection is a crucial step in the import procedure for goods subject to specialized inspection. We combine local knowledge with world class professionalism - we were one of the first Vietnamese inspection companies to be awarded ISO 17020:1998 (TCVN. Before exporting or importing a shipment, the most crucial thing is to check if the goods are allowed for import-export. Only then can you decide whether to proceed with exporting or importing that. Volza's Big Data technology scans over 2 billion import shipment records to identify new Buyers, suppliers, emerging markets, profitable import opportunities, and promising products.
