

Intelligent Power Distribution Cabinet Monitoring Unit Settings

Overview

Its user friendly interface allows you to remotely monitor Amps, Watts, Volts, power factor, kWh, humidity and temperature levels via any web browser. Or receive alarms and alerts via SNMP or e-mail when conditions exceed their pre-set thresholds. The Geist™ Rack Power Distribution Unit (rPDU) gives data center managers the flexibility to install the intelligence required today, with the option to upgrade technology as needs evolve. From basic power to power monitoring, the rPDU product line adapts to a business' needs now and in the. You can monitor the power status of any device that is connected to the PDU, either locally or remotely, by using the PDU web interface or the IBM PDU Configuration Utility. ©2024 Hubbell Premise Wiring. Hubbell and the Hubbell logo are registered trademarks or trademarks of Hubbell Incorporated. All other trademarks are the. Overview: PLS-DP series of intelligent precision power distribution Cabinet series products include: power, UPS input, output, counter, three varieties of Cabinet. Panduit's iPDUs provide comprehensive, accurate, energy measurement data to efficiently use power resources, make informed capacity planning decisions, improve uptime.
