

LSW Integrated Access Switch

Overview

It is a new-generation line of enhanced IPv6 Layer 3 10-Gigabit switches developed by DPtech. The switches are single rack-unit switches which support up to 48 GE ports and eight 10GE extension ports to meet bandwidth requirements. The LSW2F8 and LSW2F16 10/100 Ethernet Switches are designed to give you the ultimate in performance, flexibility, ease-of-use, and reliability. The LSW 10/100 switches can increase performance on your network by bringing full Ethernet bandwidth to individual workgroups or straight to the desktop. Page 1 DPtech LSW5662 Series Layer 3 Switches Installation Manual. Page 2 Owing to product upgrading or other reasons, information in this manual is subject to change. Hangzhou DPtech Technologies Co. has the right. By using an innovative wireless network, SAFE-OTRONIC access LSW offers convenient central control functions which can be upgraded at any time and do not require any cabling.
