

Mesh-type cable tray screw connections

Overview

The mesh cable tray connectors (GV 30, GVD) and universal connectors (GVU), allow the mesh cable trays to be assembled quickly and easily in a straight line. Even horizontal changes in direction can be achieved with ease, e. At temperatures below - 20 °C, the material will be any other purpose than. The second generation open type wire mesh cabletray designed by Swastik includes indoor & outdoor use widely used in installation cable in different telecommunication houses, electricity units and engineering project. The GR-Ma-gic®, the Magic® G mesh cable tray, the C mesh cable tray and the heavy-duty SGR mesh cable Installation time is an important. Our mesh cable trays are ideal for routing cables horizontally in hygienic areas, datacentres or in the machine building industry. Their ability to reduce the risk of heat build-up is just one advantage of their open design.
