

Modular energy storage cabinet 100kWh for distribution network automation

Overview

This innovative energy storage cabinet combines advanced energy storage batteries with a modular Power Conversion System (PCS), an energy management monitoring system, a power distribution system, an environmental control system, and a fire control system. The system integrates lithium battery modules, BMS, EMS, high-voltage distribution and protection, fire safety, air-cooled thermal. Energy Cube 50kW-100kWh C&i ESS integrates photovoltaic inverters and a 100 kWh energy storage system. This fully integrated 100kW/215kWh system combines high-density battery storage with intelligent power management in a single, factory-assembled unit - delivering unmatched performance and reliability for demanding commercial applications. It adopts modular PCS for easymaintenance and expansion. The outdoor cabinet adopts. Huijue Group's commercial and industrial energy storage system adopts an integrated design concept, integrating the battery, battery management system BMS, energy management system EMS, modular inverter PCS, and fire protection system in a single cabinet. Introducing the cutting-edge High Voltage All-In-One Hybrid Energy Storage System.
