

No image displayed after power is supplied to the distribution box

Overview

◆◆ Restart the DirecTV box by unplugging it from power for 30 seconds and plugging it back in □□ Check the satellite signal strength in the settings menu and ensure cables are secure □□ Try a different HDMI port or cable to rule out connection issues. moreThis is a very common problem that affects many people, regardless of the brand or model of their television. First and foremost, ensure that your television is properly plugged in and turned on. The TV may “turn on,” but the screen remains blank. If the TV still doesn't have a picture, you'll need. If your TV connected through a One Connect Box isn't displaying a picture, follow these steps to identify and fix the issue. What's this?

10 Sep 2024 09:28 PM Posted by a Superuser, not a Sky employee. Find out more Hi, @oldfella many thanks for the quick response, I tried that and with a new HDMI lead and still the. Ok, so if you can't get it to post with NO hard drives attached, nor with either stick of memory installed individually, and you've already tried a different motherboard, and a different power supply, then it has to either be the CPU or the graphics card. From checking the connections to troubleshooting the power supply, we'll cover all the possible solutions to help you bring your TV back to life and enjoy your favorite shows and movies once. RAM, graphics card, power supply and BIOS are key when the computer turns on but does not display video. Many cases are due to drivers or Windows after updates, which can be resolved with Safe Mode.
