

Parameters of Spanish Waterproof Distribution Box

Overview

Waterproof and dustproof: IP66 protection level, suitable for indoor and outdoor installation, especially suitable for outdoor environments. Modular design: The number of modules ranges from 4 to 36 to meet various circuit configuration needs. Transparent window: Recommended for outdoor use: UV protection according to the ISO 4892-2 standard, method A: 1000 h. Supplied in individual packaging. This two-digit code defines the level of sealing against solids and liquids. For most industrial applications, an IP66 or IP67 rating is the benchmark, meaning the unit can withstand high-pressure water jets. (1) Waterproof distribution box engineered for harsh outdoor and industrial environments, providing IP65–IP68 sealing against dust, rain, and UV. (3). Discover EKDB10 IP65 waterproof distribution boxes made of durable PC plastic. Available in 4-39 ways, single/double/triple layers, ideal for industrial, commercial, and photovoltaic applications. Check dimensions & specs now! EKDB10 series. The Waterproof Electrical Distribution Box, with its high-definition transparent cover, is a transparent panel that not only allows for easy monitoring of the internal components, but also enhances the overall aesthetics, making it perfectly suited for functional applications.
