

Price list for Dutch current-sensing optical cables

Overview

The Price list N 08/2024 - Cables for domestic and industrial applications is applicable starting August 1th 2024 and replaces the former one, Price list N 02/2023. All prices are given per 1000 meters. The Price list is made available as an excel file, in French. CRU provides comprehensive, accurate and up-to-date price assessments and research reports for bare optical fibre across various key regional markets, combined with insights into the factors and events affecting markets. At this page you can download our gross price list for products for low voltage installation market. Please note our. We can help you to find the right cable Since its foundation in 1930, TKF has developed from a cable producer into a technologically leading provider of connectivity solutions. Farnell's fibre optic cables are engineered to provide high-speed, high-bandwidth data transmission over long distances with minimal signal loss. Ideal for telecommunications, data centres and networking applications, our fibre optic cables are available in single-mode and multimode configurations. They are applicable for the production of back-bone and FTTX OFC cable constructions such as loose-tube, central-tube, ribbon, micro-duct and sensing fiber optic cable constructions.
