

# Price of a spectrometer for physics experiments

## Overview

Prices for new spectroscopy systems generally range from \$15,000 to \$200,000, depending on the type of spectroscopy, sensitivity, and advanced features. High-end models with enhanced precision and capabilities are priced toward the higher end of the range. Online shopping for Spectrophotometers - Spectrometry from a great selection at Industrial & Scientific Store. It serves 224 countries and over 205,000 scientists globally. Deliberate design choices are made to enhance the learning experience provided by the setup, where every component is accessible to students, allowing them to fully. Mass spectrometry is a key technology in life sciences, biotech, and pharmaceutical research, offering precise molecular analysis for everything from proteins and small molecules to complex biological samples. It is based on measurement of absorbance spectrum of optical area of electromagnetic emission.
