

Price of rooftop and ground cable trays

Overview

Wireways and cable trays price structures are dominated by material costs, which account for 60-70% of total project expenses. Steel wireway systems typically fall in the \$8-20 per foot range, while aluminum variants command premiums of \$12-30 per linear foot due to corrosion. As buildings contain more and more devices and systems requiring structured cabling, the need for sturdy cable tray supports is growing. Our custom designs can be tailored to any width and height offering stable supports for your cabling on rooftops. What can we offer?

Technical designs, advice and. Medium Duty Cable Tray Couplers Wrap over design - fits to the ends of Medium Duty Cable Tray For Joining 2 lengths of cable tray on a straight run Pre Galv Steel - British Standard Specification. Cable support systems are structural systems used to. The Roof-Pro range of cable management solutions is suitable for supporting the following: For smaller cable volumes, Roof-Pro's TAB-C support utilises a single, broad base that provides effective and non-penetrative support for tray and ladder runs. Layout isolation pads, (provided by contractor), according to the design and layout. Insert legs of duct support into bases and attach with 2-1/2" bolt and 1/2" nut.
