

QBH optical fiber core size

Overview

QBH Fiber Optic Cable: 1030 nm to 1090 nm Datasheet SPECIFICATIONS QBH RQB
Maximum Power CW (kW) 10 1. 20 Fiber Core Dimensions (μm) ≤ 1000 Fiber
Concentricity (μm) ≤ 10 Z-position. ompatible with most available tools worldwide.
The QBH fiber connector is water-cooled to optimize the performance including its
superior power loss capability. The built-in mode stripper generates well-defined. Air-
cooled QBH fiber optic cable adopts high-power resistant fiber core and professional
air cooling structure, featuring low insertion loss, stable beam transmission and
excellent heat dissipation performance. Optizone Technology has been devoloping
and producing high power laser components since 2007, and has mass-produced
Fiber Optical Cable since 2015. Our QBH-style laser heads are equipped with a safety
interlock and are available in air-cooled or water-cooled versions with an anti-
reflection coated. *The actual dimensions may be different from above drawing due
to different requirements, please see shipment data sheet. *For FOC without window,
the transmission @635nm is around 80% (Inner Core). *The material must be RoHS
compliant. Package Dimensions Ordering Information.
