

Reinforced Fireproof Cable Tray

Overview

Fire-coated steel trays offer the best of both worlds. These trays are treated with a fire-resistant coating that forms an insulating layer during a fire, significantly reducing the risk of fire spread. This makes them a top choice for high-risk environments where fire safety is a. Cablofil cable tray is the preferred choice for the cable containment of low and high voltage electric cables where fire resistance is crucial - this includes cable basket tray systems for Prysmian FP (FP400 and FP600) and Draka Firetuf type cables. Cablofil fire resistant and fire proof cable. Our Durasteel cable enclosures are also assessed in accordance with the standard defined in BS EN 1366-5:2003 for a fire from both 'outside to in' and 'inside to out'. 7 products are successfully used to protect cables in high-rise buildings, industrial buildings, and offshore facilities as well as in sensitive areas, such as hospitals, airports, production. FireResistant Solutions provides cable tray covering and fire-protection systems designed to safeguard electrical and data infrastructure in commercial and multifamily buildings. It is constructed mainly by using an epoxy-based intumescent fire protection system, combined with.
