

ST01 Interface Type

Overview

The ST01 and ST02 Host Adapters provide an 8-bit SCSI interface for the IBM PC XT AT (and all 100% compatible systems) and up to seven SCSI devices. Installation of more than two hard disc drives requires device driver software, which is not provided by Seagate. PC XT is a trademark of International Business Machines Corporation. Paired Program means that the drive and Host Adapter/Controller are. SEAGATE TECHNOLOGY, INC. While the Seagate family of 8-bit SCSI cards are somewhat limited, given the seeming lack of ASPI/CAM drivers, if you're simply looking to throw a SCSI hard-drive into an older system with minimal fuss (or CompactFlash card solution, as I'm generally wont to do), this late-model variant is a pretty. ademarks of International Busine# Machines Corporation.
