

Saudi Arabia Professional Temperature Measuring Optical Cable Model

Overview

The OPTITEMP TCA-M30 is a mineral insulated (MI) thermocouple with a mini connection head (type MA). The MI cable sensor is particularly suitable for applications where the ambient temperature exceeds the maximum allowable temperature of standard cable material (e. Unlike conventional sensors, these optical systems can withstand extreme heat, electromagnetic interference, and corrosive. Evaluate the trends, eliminate the doubtThe Fluke 1555 insulation resistance tester offers digital insulation testing up to 10 kV, making them ideal for testing a wide range of high voltage equipment including switchgear. Fluke 87V Industrial MultimeterIncludes:TL75 Test LeadsAC175 Alligator. Fiber optic temperature sensors are immune to the many environmental effects that compromise other measurement technologies, can be embedded and installed in locations traditional temperature sensors cannot and deliver an unprecedented level of spatial detail and data without sacrificing precision. Thermosensor Saudi (A Division of Gulf Thermo Group) is a Professional supplier and Solution Provider of Temperature Sensor Elements, Temperature Gauges, Pressure Gauge & Heating; Components since 2014 located in Al-Khobar, Saudi Arabia.
