

Slovenian high-temperature temperature measurement optical cable manufacturer

Overview

is the leading company in Slovenia in the field of cable assembly, cables, connectors and installation accessories. Ease of use, versatility, functionality and quality. These principles are reflected in our entire product line. For more details about individual product. Sistemi Cavo HT is a high temperature electrical control cable that exhibits an electrical resistance of 2000 Mohm x km at 20 °C with maximum operating voltage of 600 V. was established in 1989 as a subsidiary company. Stanislav Lubej, who ran the company from the beginning, became owner after few years of bussinnes. Offers customized optical fiber solutions for. LÜTZE offers a large portfolio of flexible and highly flexible electronic cables with color-coded conductors, unshielded, shielded, and twisted pair. GP - Fiber Optics offers a wide range of optical. Fibernet is specialized in BtoB segment, serving businesses across all sectors operating in five main business segments: Highly skilled and motivated team is at your service, across the country or abroad to meet your requirements!.
