

Swiss 48-core smart building fiber optic cable company

Overview

Discover DIAMOND, a global leader in precision fiber optic technology. From innovation and vertical integration to ISO-certified quality, our Swiss-made solutions power critical applications across aerospace, telecom, medical, and industrial sectors. Reasons for this relatively low number include the WEKO procedure against Swisscom (500,000 connections built but blocked) and the good coverage of Switzerland with HFC cable networks. To improve the coverage. The extensive installation of 198 solar panels on the WMO building in Geneva offers a capacity of 92 kilowatts and contributes to a sustainable power supply. A safe start to working life – our safety training courses for apprentices. Starting a career not only brings new opportunities and. FiberOptic is a Swiss fibre technology manufacturer, based in Spreitenbach near Zürich. We specialise in the manufacturing of custom and standard solutions for light guides with a variety of fibres. Each customer's individual requirements determine how we develop technically flawless solutions for. Founded in 1958 in Locarno, Switzerland, DIAMOND began as a specialist in the precision machining of ultra-hard materials such as ruby, sapphire, tungsten carbide, and diamond. In our early years, we produced phonograph styli (turntable needles), where exceptional accuracy and durability were. The company, Diamond SA, specializes in manufacturing high-performance fiber optic interconnects, including the only single-channel fiber optic interconnect qualified by the European Space Agency.
