

Telecommunication Tower Industry Qualifications

Overview

Quick Answer: To become a tower technician, complete a training program at a trade school or technical institute (2-6 months for a certificate), then earn required safety certifications (OSHA 10, TTT, Competent Climber/Rescuer). Most training programs can be completed within 3-6 months. No college. Tower technicians, also known as cell tower technicians or wireless communications technicians, install, maintain, and repair the high structures that support modern wireless networks. What does a tower. NWSA representatives initially defined two levels of telecommunications tower technicians for crew members who perform general construction activities with an emphasis on tower system installation, modification, maintenance, and inspection of support structures used in telecommunications, including. This is where Pinnacle Career Institute (PCI) comes in. Unlike traditional trade school programs, PCI offers flexible online coursework combined with a. The Bureau of Labor Statistics projects approximately 23,200 annual openings for telecommunications technicians through 2034.
