

Type of rubber strip used in distribution boxes

Overview

Therefore, the self-adhesive sealing rubber strip is widely used in chassis, distribution boxes, cabinets, distribution cabinets, electrical cabinets, automobiles, doors and windows and other industries. At Delta Rubber Limited, we take pride in being a one-stop shop for rubber strip, offering an extensive off-the-shelf range. Rubber sealing strips are essential parts in automobile manufacturing, curtain walls, industrial doors, and electrical cabinets. While choosing the right type can be tiresome. These flexible strips are perfect for this job because of all of their excellent features. They play an essential role in sealing, insulation, cushioning, and vibration damping applications, delivering top-notch performance under challenging conditions.
