

# What are the entry-level positions in optical module manufacturing

## Overview

A career path for an Optics Manufacturing Technician typically begins with entry-level positions such as an optics technician or assembly technician. We use advanced optical scanning systems and Zeiss Inspect software to ensure the highest accuracy in component verification. Solid education in optical system design. Must have a strong. It is a one stop shop for design, prototyping, testing, and manufacturing of composite and steel hull structures, mooring systems, weather data collection buoys, Unmanned Underwater Vehicles, and UUV launch and recovery systems in the growing undersea defense marketplace. LBI is positioned well to. Check out the latest opportunities with companies involved in the commercial development of optical engineering, remote sensing, materials and devices, signal and image processing, illumination engineering, nanotechnology, and X-ray optical technologies. Benefits: Medical, Dental, Vision, Life Insurance, Short Term Disability, Long Term Disability, 401k, Paid Family Leave, Holidays, PTO.
