

What bridge is Oman building

Overview

The Ayjah Bridge, also known as Khor Al Batah, is a suspension bridge that connects two major suburbs of Sur: two segments on opposite ends of an estuary. It has been designed for pedestrian and light vehicle use. The concrete slab, 30 cm thick and made of prefabricated elements, is supported by steel cross girders at 3 m spacing. These girders are suspended by. In this article, we explore the Top 10 new and ongoing construction projects in Oman 2025 according to the estimated project cost. Sur is. The Ministry of Transport, Communications and Information Technology has commenced the implementation of a project to construct five new bridges on the Sohar-Al Buraimi Road, with a total cost of more than OMR 6 million. The signature project by the Oman property developer aims to build a community, that prioritizes an exquisite. The Burj Al Sahwa Roundabout redevelopment in Muscat, Oman, has reached a pivotal milestone as Strabag Oman announced the lowest bid of 201. 8 million Omani rials (approximately \$525 million). This flagship initiative is part of Oman's Vision 2040, which aims to mitigate traffic congestion and.
