

# What is an SM distribution box

## Overview

An SMC Molded Distribution Box is an electrical enclosure manufactured using Sheet Molding Compound (SMC) compression molding technology, specifically designed to house and protect electrical distribution components. Power Up Your Distribution System with SMC/FRP Boxes! Durable, reliable, and built to last, our distribution boxes ensure safety and efficiency for your electrical systems. Ideal for both indoor and outdoor applications, our SMC distribution. In advanced electrical distribution networks, SMC Pole Distribution Box play a significant role in confirming efficient and secure power transmission. All the boxes commonly mounted on poles work as a defensive enclosure for electrical components. They can be fuses, circuit breakers, and wiring. SMC is a high-performance thermoset composite material made from unsaturated. Comprehensive Electrical Distribution Solutions: Offering a range of options from single & three-phase L. distribution boxes to SMC Service Mains DB with spring-loaded constant pressure and multi-connection busbars, suitable for various power capacities up to 400 KVA DT. Superior Security and. Easy Installation.
