

Zambia 12-core bundled pigtail

Overview

Designed for high-density cabling and batch deployment scenarios, this 12-core pigtail supports single-mode (G652D/G657A) and multimode (OM1-OM4) fiber and offers a variety of termination options, including SC, LC, FC, ST, and MTRJ. 12 cores single-mode fiber bundle pigtailed for efficient splicing in telecom networks and data centers. Ideal for high-density fiber optic systems with minimal loss. Safe and reliable: Using high-quality materials and structural design to ensure the durability and safety of the product. Low insertion loss: The product has low insertion loss, ensuring. We're a leading firm with a lot of years' experience in 12 cords fiber pigtail in Zambia export company in China. Our solutions have pass by way of professional certifications. A 12-core fiber optic pigtail is a short-length optical fiber cable with factory-terminated connectors on one end and bare fiber on the other, designed to be spliced into main fiber runs.
